New Physical Education Building

Foreword

THE Indiana State Teachers College is a state-owned institution devoted exclusively to the preparation of teachers for the public schools of Pennsylvania. Graduation from an approved four-year high school is required for entrance. The following curricula are offered:

- I. **A Kindergarten-Primary Curriculum** of two years designed primarily to prepare for teaching in grades one, two, and three. (See pp. 25 for details.)
- II. **An Intermediate Curriculum** of two years designed primarily to prepare for teaching in grades four, five and six. (See pp. 26 for details.)
- III. **A Rural School Curriculum** of two years designed primarily to prepare for rural school teaching. (See pp. 26 for details.)
- IV. **An Advanced Two-Year Curriculum** leading to the Bachelor of Science degree in Education open only to those who have completed I, II, or III above. (See pp. 27 for details.)
- V. **A Four-Year Curriculum** in elementary education leading to the Bachelor of Science degree in Education. (See pp. 29 for details.)
- VI. **A High School Curriculum** of four years designed primarily to prepare for teaching in the Junior and Senior High Schools and leading to the Bachelor of Science degree in Education. (See pp. 31.)
- VII. **A Music Curriculum** of four years designed primarily to prepare teachers and supervisors of public school music and leading to the Bachelor of Science degree in Public School Music. (See pp. 34 for details.)
- VIII. **A Home Economics Curriculum** of four years designed primarily for the preparation of teachers of Home Economics in public schools and leading to the Bachelor of Science degree in Home Economics. (See pp. 38 for details.)
- IX. **A Commercial Curriculum** of four years designed primarily to prepare teachers of commercial subjects in public schools and leading to the Bachelor of Science degree in Education. (See pp. 41 for details.)
- X. **An Art Curriculum** of three years designed primarily to prepare teachers of drawing and art in public schools. (See pp. 46 for details.)

Every student who enters the Indiana State Teachers College must sign a declaration of intention to teach in the public schools of Pennsylvania for not less than two years.

Contents

The following analysis of the contents of this catalog is designed to assist the reader in finding readily the particular thing in which he is interested.

PART I.

General Information for Prospective Students

HISTORY OF THE SCHOOL
LOCATION
BUILDING AND EQUIPMENT
STUDENT LIFE AT INDIANA

History of the School

THE plan of this Institution was conceived in the sixties, the first money, some twenty thousand dollars, being subscribed for its founding in 1869. The first recognition by the State was through an act of the General Assembly in 1871, but the school was not opened until May 17, 1875. Its first principal was Dr. E. B. Fairfield, who afterwards, as the first Chancellor of the University of Nebraska, so largely influenced the future of that institution.

Among the notable men present upon the opening day of the school was one of Pennsylvania's most famous educators, then State Superintendent of Public Instruction, James P. Wickersham, who stated in his public address that it was his opinion that Indiana's first building was the largest, finest and best-planned structure devoted to normal school education in the United States. A monument to its founders, that building still stands and, in honor of the first president of the board of trustees, it is known as John Sutton Hall.

In 1893 there was erected upon our campus a brick residence for men students. In February, 1906, this building was burned to the ground. There were excellent fire escapes, so not only were no lives lost, but there were no serious injuries. The ruins were not cold before the trustees were planning for a larger and better dormitory. The building stands upon the site of the old one, but is somewhat larger, and is known as Clark Hall, in honor of the board's second president, the late Justice Silas M. Clark of the Supreme Bench.

In 1893, also, the board erected, to the northward of the main building, the Model or Training School, and named it, in honor of their third president, the A. W. Wilson Hall. This building contains eight large, airy classrooms, with ample playrooms in the basement for use on stormy days.

The year 1903 marked a strong advance in Indiana's material equipment. The Normal's Recitation Hall was then erected. It stands just to the southward of Wilson Hall, completing the east wing of the quadrangle. A stately structure it is and one of the most beautiful on the campus. The dimensions are a frontage of one hundred and thirty feet and a depth of one hundred and twenty-three. The building is the school proper of the Normal and contains twenty-four large, beautiful rooms. The Trustees honored themselves by naming this building after one of their widely known and most faithful teachers, Jane E. Leonard.

During that same year (1903) there was erected to the westward of the south wing of John Sutton Hall another most beautiful and imposing structure, one hundred and twenty-three by ninety-two feet in size and three stories high. In the basement of this building is the laundry and storage, while on the first floor are the kitchens, dining-rooms, and the Steward's office; the Music Conservatory occupies the second and third stories. This building is known as Thomas Sutton Hall, in honor of the President of the Board of Trustees.

During the past few years something more than \$60,000 has been spent in improving the Institution's plant, the most noteworthy improvement being the erection of a cold storage plant in connection with the refectory. It enables the school to manufacture its own ice, and to furnish its students at all times with the choicest fresh meats.

During the year 1910 two notable additions to our buildings were made—an annex to the dining hall, seating over two hundred, and an annex to the girls' dormitory, accommodating sixty-two girls. The dining-room annex contains a very large fire-place, which promotes good cheer and helps the ventilation materially. No dormitory affords its occupants better rooms for the prices charged. This building is practically fireproof, and its bath-rooms—one on every floor are tiled and finished in Italian marble. Occupants of the better equipped rooms pay from seventy-five cents to one dollar a week extra.

During the year 1913 the Trustees bought land off the Campus and across the P. R. R., and erected a Power Plant at a cost of \$140,000.00. This plant has since become inadequate and a new Power Plant has just been completed which is one of the best equipped plants in the Commonwealth. It provides all heat and light and furnishes power for the elevators, ventilating fans, and culinary machinery.

During the year 1914 the Ambulatory around Recreation Hall was built and the Hall itself entirely reconstructed. The "North Annex" to the girls' dormitory was built, providing rooms for seventy girls. The rooms in this annex are larger than those in the old dormitory, and they are better furnished than any other of our rooms; each girl has her own bed, her own desk, and her own study-light. An addition nearly doubling the capacity of the kitchen was built, and more than \$3,000 worth of new kitchen appliances were added. A large fruit cave, ten feet by sixteen by twenty-four feet, entirely underground, was constructed. This cave is water-proof, and enables the school to have fresh fruit practically the year round.

During the year 1915 an addition was built, that doubled the capacity of the "North Annex." The rooms in the new part are better, however, than those in the part first constructed. In addition to the advantages thus afforded, each room opens into a private dressing room with lavatory supplied with hot and cold water. The entire first floor of the addition to the "North Annex," 101 feet in length, is now occupied by the Library.

From time to time additions have been built to our dining-room. Those who have seen many schools announce their opinion that ours is the finest school dining-room in America.

In April, 1920, the entire control and ownership of the school passed to the State of Pennsylvania. In the early spring of 1927 ground was broken for the erection of the New Physical Education Building and this building is now completed and was dedicated on May 12, 1928.

A Part of the Campus

Location

THE Institution is fortunate in its location, the site being one of great natural beauty, while the surrounding town is characteristically beautiful and has developed those moral influences so desirable in the seat of an institution of learning. The town has a population of more than 8,000 and maintains churches of the following denominations: Methodist Episcopal, Free Methodist, Episcopal, Presbyterian, United Presbyterian, Catholic, Lutheran, Baptist, Wesleyan Methodist, German Lutheran, and Christian. Growth and improvement have especially marked Indiana in the past few years, and bid fair to continue.

The place is reached by rail without difficulty, being the northern terminus of the "Indiana Branch" of the Pennsylvania, the change from the main line being made at Torrance, to the Indiana Branch Line. The Indiana Branch connects at Blairsville with the West Pennsylvania Division. The Pennsylvania R. R. Cresson train also runs direct to Indiana. Indiana is also on the Buffalo, Rochester and Pittsburgh, which gives connections with all northern points. The College is within ten minutes walk of either depot. The Pennsylvania stops all its trains at the "Campus Landing" on the first day of each term. Both the railways put on extra coaches at the opening of each term in order to accommodate all, if possible, with seats. *Indiana can be reached from any point in Western Pennsylvania in twelve hours. It is also accessible from all main highways by excellent cement roads.*

The campus, comprising twenty-three acres, has its natural beauty greatly enhanced by the constant care of a gardener. It is the belief of the Institution's authorities that such surroundings are a potent factor in the upbuilding of the student's character.

North Walk

Building and Equipment

THE original building, John Sutton Hall, has been in use since 1875. Additions have been made until this one building now houses five hundred twenty girls, a number of teachers, the offices, supply room, library, recreation hall, and chapel. Thomas Sutton Hall, connected with John Sutton Hall, houses the laundry, bake shop, kitchen, dining-room, and conservatory of music. Clark Hall is another dormitory for girls and is located a short distance from Thomas Sutton Hall. On adjacent streets are eleven residences that are used for students.

Jane Leonard Hall is a building devoted exclusively to class room purposes.

Wilson Hall houses the Campus Training School. A cooperative arrangement for student teaching in the public schools of Indiana has existed for a number of years. Student teaching is also done to a limited extent under cooperative arrangements in Johnstown, Altoona, Kittanning, Punxsutawney, Latrobe, and Blairsville.

The Power Plant furnishes heat, light, and power for the school.

The school is well equipped for the work it undertakes to do.

There is a library with about 12,000 usable volumes. Magazines and newspapers are available. Every student is given instruction in the use of the library.

There are adequate laboratories for physics, chemistry, home economics, and commercial subjects.

There is a well equipped infirmary in charge of two trained nurses. A residence serves as an isolation hospital for contagious diseases.

The dining-room, kitchen, and bake shop provide food for more than 1000 persons. The laundry is of equal capacity.

The new Physical Education Building contains two gymnasiums, a swimming pool, and other facilities for health instruction and recreation.

In short, the buildings and equipment at Indiana are good and are utilized throughout for the convenience, safety, and services of its students.

Recreation Hall

Student Life at Indiana

LIVING

THE State Teachers College is primarily a *dormitory* school. It admits, as Day Students, only those who live with parents or relatives. The school has rooms for 700 young women. When these are filled, the school rents suitable and nearby rooms for young women students who come to the school's dining-room for their meals. Such students—"cottagers" they are called—are under the same regulations as students in the school's dormitories.

Students whose homes are not in Indiana and who desire to live with relatives in Indiana as Day Students must have the approval of the Principal in advance of registration. Under no circumstances are students permitted to room or board with private families, not immediate relatives.

Young men students who are not Day Students room at private homes in rooms rented by the school and take their meals in the school's dining-room.

BOARDING

As already indicated, all students who are not Day Students board at the school, as do many members of the faculty.

LAUNDRY

The laundry of all Boarding Students—to the extent of ten plain pieces per week, plus towels and napkins—is done in the school's laundry. All pieces sent to the laundry must be plainly marked with the owner's name. Name tapes sewed on articles of clothing constitute the best identification. A laundry bag should be owned and used by every student.

Electric irons for pressing clothes are installed on three floors of the John Sutton Hall and on the second floor of Clark Hall.

SUPPLIED BY STUDENTS

All students who live in school accommodations and all students who are assigned to rooms at private homes must provide themselves with blankets and comforts as the school and house mothers furnish only the linen and counterpanes. Such students must also provide window curtains, soap, towels, and needful toilet articles.

All students who take meals in the school's dining-room should bring with them an adequate supply of table napkins.

BASAL RATES AND REFUNDS

Since the school at Indiana has been developing for more than fifty years, its rooming accommodations are of different grades of excellence. It has therefore become necessary to have a basal rate for the least desirable rooms and an extra charge for the more desirable rooms. These extra charges range from fifty cents to one dollar per week. These extra-charge rooms are always in great demand and entering students have only an accidental chance now and then to secure one of them. Furthermore, single beds are desirable from every point of view. Every housekeeper knows that this means extra laundry. There is, therefore, an extra charge of fifteen cents per week for single beds.

The basal rate for board, room, and laundry is \$144.00 per semester of 18 weeks. This is at the rate of \$8.00 per week. The school, however, does not accept students for a *week*. On the contrary, the acceptance of a student is for a semester, and parents, guardians, and any others who are providing for the expenses of students at Indiana

should understand that their financial obligations are for an entire semester. No refund at all is made:

- (1) To students who are temporarily suspended, indefinitely suspended, or dismissed from the school.
- (2) To students who voluntarily withdraw from school except on account of a family emergency.

Refunds are granted only:

- (1) In case the withdrawal from school is due to personal illness, the same being certified to by the attending physician.
- (2) In case the withdrawal from school is due to a family emergency of which the school authorities are fully informed.

In such cases, the refund is one-half of the amount chargeable for the part of the semester which the student does not spend in school.

No deduction is made for absence the first two or the last two weeks of a semester, or for less than two weeks, for any cause whatever.

The reasons for such a policy are clear. When a student is accepted, the school obligates itself to provide board, room, laundry, and teachers for him. On the basis of these accepted students the school plans to meet its obligations to them. When, therefore, a student withdraws from school during a semester, the expenses which the school has assumed continue unabated for the most part. There is a very small possible saving in food and laundry. Outside of these items, the room must be heated and lighted, the salaries for teachers continue, the kitchen, dining-hall, bakery, laundry, janitor, household, and power house employes remain the same as if the student stayed in school. Indiana, in sharing equally with the students the losses due to personal illness and family emergencies, is generous.

There is a registration semester, or term fee of \$12.50 for boarding students and \$15.00 for day students which is never, under any circumstances, returned.

TABLE OF RATES

	<i>First Semester</i>	<i>Second Semester</i>	<i>Summer School</i>
Semester Fee, Day Students.....	\$ 15.00	\$ 15.00	\$12.50
Semester Fee, Boarding Students	12.50	12.50	10.00
Basal charge for Board, Room, Laundry.....	144.00	144.00	48.00
Home Economics Students—Fee.....	40.00	40.00	10.00
Music Curriculum Students—Fee.....	60.00	60.00	20.00
Art Students—Fee.....	20.00	20.00
Commercial Students—Fee.....	5.00	5.00
Late Registration Fee.....	1.00	1.00	1.00
Locker Fee for Gymnasium Privilege.....	*1.50	1.50	1.50
Sheepskin Fee for B. S. Degree.....	5.00	5.00	5.00
Books (purchased) about	15.00	15.00	15.00

*50c. to be refunded upon return of key and towel.

STATE SCHOLARSHIPS

Holders of State Scholarships may attend State Teachers Colleges provided they take courses leading to the Bachelor of Science Degree.

Indiana has always been proud of the appearance of her students, and the following gymnasium and pool equipment has been adopted, and should be purchased in the College Book Room.

For Girls—The costume for girls will be—2 gymnasium blouses, 1 black flannel knicker bloomer, 1 pair gymnasium shoes, 1 pair black cotton hose, 1 worsted tank suit, 1 swimming cap.

Twelve

For Boys—The costume for boys will be 2 white cotton jerseys, 2 white running pants, 1 pair white light wool socks, 1 pair gymnasium shoes (Keds), 1 gray cotton tank suit.

Some students may wish to use the swimming cap that they already possess. The following colors will be required; for beginners, red; for those who swim a little, green; and for the swimmers blue.

VACATION CHARGES

Students remaining at the school during the Thanksgiving, Christmas, Easter or Summer Recesses will be charged at the transient rate of \$1.70 per day, or \$11.90 per week.

GUESTS

Students and teachers are responsible for meals of their guests at current transient rates. All visitors staying in the school's buildings over night must be registered with the Dean of Women by the person or persons entertaining them. This privilege applies only to young women of school age. Students may accompany mothers or older relatives to the hotel for meals or over night, arrangements having been made in advance with the Dean of Women. The buildings are closed to guests at 11 P. M.

CHARGES DURING ILLNESS

For minor illnesses students are charged fifty cents per day after the third day in the Infirmary. For the first three days no charge is made.

In cases of serious illness, students are removed to the Indiana Hospital at their own expense.

In cases of contagious disease, students are taken to the school's Isolation Hospital, the charge being ten dollars extra per week.

The foregoing charges are exclusive of the fees of physicians, the expenses of employing trained nurses, and the costs of medicines.

DAMAGES, REPAIRS, ETC.

The rooms are fully equipped for students at entrance. Any damage to furniture, furnishings, or building, beyond that which comes from use, will be charged against students. At the opening of the year all necessary electric lamps are furnished free. Thereafter, students pay for extra light bulbs.

HOW ROOMS ARE ASSIGNED

Students in school at the close of any school year have rooms assigned to them as follows: If girls desire to keep the rooms they have, these rooms are assigned to them. At a meeting the remaining rooms are put up in order of desirability. If two or more groups of girls desire the same room, the groups draw lots for it. This process continues until all girls in school are assigned to rooms for the following year.

Entering students are assigned to rooms in the order in which their applications are received and as nearly in accordance with their preference as is possible.

HOW TO SECURE ROOM ASSIGNMENTS

All entering boarding students are required to pay \$10.00 in advance for the reservation of a room. This is due when the Application for Entrance Blank is made out. (This will be sent on request to any prospective student.) This amount is credited on the following semester's charge for board, room, and laundry. Students in school at the end of any year who reserve rooms for the following year must pay the Room Reservation Fee by July 1st or their assignment to a room is cancelled and they take their place on the list of entering students. Students are not permitted to room alone.

If, after expecting to enter Indiana, circumstances arise which cause a change in intention, the full amount —\$10.00—will be refunded if the application for refund is made *before* August first. If the application for refund is received between August second and August fourteenth, one-half of the amount —\$5.00—will be refunded. After August fourteenth, no refund on room reservation fee will be made.

The reason for this ruling is that the Teachers College, between August 1st and 14th, rents rooms from private families in Indiana for its excess of boarding students. We always make plans to fill the school to capacity and must be protected.

Rooms are not held for students beyond the first day of a semester or term unless arrangements have previously been made.

AMOUNT AND TIME OF PAYMENTS

First Semester

At the beginning of the First Semester—

Each boarding student will pay a semester fee of	\$ 12.50
Each day student will pay a semester fee of	15.00
Each boarding student will pay for board and room	144.00

At middle of semester, all bills for extra room rent, music, home economics, and extra charges for any courses outside the regular courses, etc., are due from all students.

Book Room bills are payable in January.

Second Semester

At beginning of the Second Semester

Each boarding student will pay a semester fee of	\$ 12.50
Each day student will pay a semester fee of	15.00
Each boarding student will pay for board and room	144.00

At middle of semester, bills covering the same items as for the middle of the first semester fall due.

Book Room bills are payable in May.

Summer School

At beginning of the Summer School—

Each boarding student will pay a semester fee of	\$10.00
Each day student will pay a semester fee of	12.50
Each boarding student will pay for board and room	48.00

HOW TO PAY BILLS AND CHARGES

Bank Drafts, Checks, Express and P. O. Orders are accepted. Payments must be made, or satisfactorily provided for, before students are assigned to classes.

Students will not be permitted to enroll for the second semester, or any later semester, until all bills previously incurred have been paid, nor will credit be certified to other institutions or to the Department of Public Instruction until all accounts due have been paid.

Students desiring to leave school before the close of a semester must report to the Principal and settle all unpaid accounts.

Visitors expecting to remain more than three days are requested to make arrangements in advance with the Principal.

Meal tickets for visitors can be obtained in the Book Room or from the Steward's Office.

All bills are payable to the Principal, and all checks should be made payable to C. R. Foster, Principal, State Teachers College.

DISCIPLINE

The Teachers College exists for the purpose of preparing young people for the vocation of public school teaching. The Commonwealth has by law declared the State Teachers College a part of the public school system.

The foregoing purpose determines the organization and administration of the school. The institution aims to be *formative* rather than reformative. There is work for students to do. There is also recreation for them. "Good work well done" ought to be the student's ideal. The Commonwealth does not want laggards or incompetents in its public schools as teachers. The teacher inevitably has influence. Therefore, the moral fibre of the prospective teacher is all important. *It is the policy of the institution to ask the withdrawal of students whose conduct is not exemplary, who have demonstrated their inability to do the class work of the Teachers college, or who have shown inaptitude in student teaching.*

DORMITORY REGULATIONS

There are inevitably many regulations that pertain to the dormitory life of students. These are too numerous and complicated to be published in a catalog. They are fully explained to students at the school. The authorities feel that there is not a single unreasonable regulation regarding dormitory life. If there be one, the authorities will gladly change it.

RELIGIOUS INFLUENCES

This school is not denominational in any sense. Its authorities, however, aim to make it a place of positive Christian influence. To this end, students are required to attend the church of their own choice on Sunday mornings.

The Y. M. C. A. and the Y. W. C. A. aid in the religious culture of all students in the Institution. Endeavor is made to promote Sabbath observance. Students are thus encouraged to become Christian workers, and school life is made to minister to the elevation of Christian life. Beside these associations, there are various others of a practical type and in a highly prosperous condition. The denominations that maintain churches in Indiana have already been mentioned. There is a Vesper Service each Sunday evening which all boarding students attend. A fine recreational room has been set apart for the boys under the control of the Y. M. C. A.

THE LECTURE COURSE

The Institution maintains an excellent free lecture course for its student body. On this course is always to be found the best obtainable talent. During the past season our students had the privilege of hearing among others: Captain Donald Macmillan, Dr. Wilfred Grenfell, Richard Halliburton, Lowell Thomas, and Thomas Szigetti.

LITERARY SOCIETY

The Literary Society has a membership of almost seven hundred students. The meetings are held every Monday evening at seven o'clock in the College Assembly Hall. Interest in these meetings is stimulated in one way only; through excellence of programs. Many one-act plays are presented by the members. The greatest possible number of students participate in these and other performances so that skill and originality in program building as well as ease in public appearances may be developed.

A small annual fee is charged each member, which makes it possible to present each year some of the best professional literary talent. This talent has recently included the English poet, Alfred Noyes; the internationally applauded, Ruth Draper, in her famous character sketches; the Charles Rann Kennedy Players; the artistic reader of ballads, Sydney Thompson; Phidelah Rice, and Henry L. Southwick, Dramatic Interpreters of Boston, and Mr. E. H. Southern, the great American Actor in Lecture Recital.

THE LYRIC CLUB

The Lyric Club is a vocal musical organization for women students only. The best part-songs are presented from time to time.

GIRLS' VESTED CHOIR

This organization furnishes music for the Sunday evening Vesper Services.

ORCHESTRA AND BAND

The school maintains an Orchestra of symphonic proportions, and a concert band. Last year the orchestra numbered forty-four pieces, the band seventy pieces.

KAPPA DELTA PI

The Beta Gamma Chapter of Kappa Delta Pi was inaugurated by President T. C. McCracken during the year 1927-28. Kappa Delta Pi is an education honor fraternity whose purpose is to foster fellowship, scholarship and achievement in educational work among the students. An average of B grade or better is required for membership. There are at the present time fifty four chapters of Kappa Delta Pi in the Teachers Colleges and Departments of Education of the Universities of this country and the present membership is over eight thousand.

ALPHA PHI GAMMA

A chapter of Alpha Phi Gamma, a national honorary literary fraternity, was established on the campus during the second semester of the school year, 1927-28. The purpose of the organization is: "To unite in a congenial group, students who are interested in the higher forms of journalism." Those eligible for membership are: editors-in-chief, associate editors, assistant editors, business managers, assistant business managers of the college yearbook and the weekly paper, who have served one semester in their respective capacities; and all others who have served one year in any other capacity on either of the staffs of the school publications. High scholastic standing is required and must be maintained.

PHI ALPHA ZETA

The Iota Chapter of the Phi Alpha Zeta Fraternity was organized February 29, 1908. The purpose of the Fraternity is to promote the general welfare of its members and to develop and maintain high athletic standing. The Fraternity is well represented in all athletics. Good moral and scholastic standing in the school is required for membership.

OMEGA CHI

The Beta Chapter of the Omega Chi Fraternity was installed here in May, 1909. The organization has grown steadily in strength and influence, and is proud to number among its members some of the ablest boys in the school. It is heartily in favor of clean athletics and, as most of the boys are in some of the teams, it exerts its influence in that direction. At present it has some thirty active members in school.

SORORITIES

Four national, professional, educational sororities have chapters on this campus: Alpha Sigma Alpha, Alpha Sigma Tau, Delta Sigma Epsilon, and Sigma Sigma Sigma. Only students preparing to teach who maintain an average of "C" or above, are eligible for membership. The sorority life offers opportunities for the growth of congenial friendships and the fostering of the highest ideals of womanhood. Broadening contacts are furnished through association with alumnae members and inter-collegiate affiliations.

ATHLETICS

Clean wholesome athletic rivalry has a place in life, therefore a place in the preparation of teachers. Indiana has no inducements of any kind to offer athletes, except the work of the school and the social and development values that accrue from participation in well-coached competitive games.

College football, basketball, baseball, track and tennis teams are maintained for the boys. The college sport for girls is tennis. Swimming teams for both boys and girls will now be possible because of the pool in the new gymnasium.

Intramural athletics are to be emphasized at Indiana. This form of athletics makes possible the selection of college material, and gives all students a chance to learn the fundamentals of the major sports, as well as derive the physical, mental and social benefits of organized team play.

Indiana believes thoroughly in athletics as a means to an end—but not as an end in itself. Indiana believes in having every student given the opportunity to participate in athletics.

CAP AND GOWN

The regulation cap and gown, sanctioned by the Intercollegiate Bureau and Registry of Academic Costume, are worn by Seniors of this Institution, upon the proper occasions.

The cost of the cap and gown ranges from \$6.50 up.

The rental for cap and gown is \$2.50.

THE ALUMNI

Indiana's Alumni—almost 6000 of them—are the students of yesteryears. Their love for and devotion to Indiana is the best proof that student life at Indiana is fine and enjoyable. Prospective students are urged to ask any graduate of Indiana about conditions at the school. It is the excellence of the work of Indiana's Alumni that gives reputation to the school.

Greek Steps

Suggestions to Entering Students

PRELIMINARY

THE prospective student should send for an Admission Blank. This blank should be properly filled out and returned with the "Room Reservation Fee" of ten dollars. Rooms are assigned in the order in which applications are received.

Check your baggage to Indiana, Pa. On the Pennsylvania trains on the opening day in September and also on the opening day of the Summer School in June, there will be a representative of the school who will collect baggage checks so that incoming students will not be bothered about their baggage. Students arriving at other times or on other roads should take their baggage checks directly to the Book Room.

The trunks are delivered in the basement of John Sutton Hall. Students identify their trunks and place their room number thereon. Porters deliver the trunks directly to the students' rooms. Students living outside of the building mark their trunks with the street address and the school's dray delivers them.

The time between terms is very short for getting the dormitories again in readiness for students. For this reason the residence halls are not open until the opening day.

FRESHMEN WEEK

All first year students will report for registration, classification and other freshmen week activities, Monday, September tenth.

A general meeting of all freshmen will be held in the Assembly Hall at 1:30 p. m., September tenth. Freshmen week activities will continue throughout Monday, Tuesday and Wednesday of Freshmen week.

Regular classes start Thursday, September Thirteenth.

Second, Third and Fourth Year students will report for registration Wednesday, September twelfth, except teaching seniors who will report on Tuesday, September 11.

ON ARRIVING AT INDIANA

All Pennsylvania trains stop at the campus on the opening day. The school is about ten minutes walk southwest of the Pennsylvania station and the Interurban station and about the same distance southeast of the B. R. & P. station.

The following suggestions will prove helpful:

- 1—Take all baggage checks to the College Book Room. Pay for the delivery. The checks are delivered to the Transfer Company. The baggage is delivered to the basement of John Sutton Hall. Students find their baggage there and mark it with their room number. Porters then deliver it at the rooms.
- 2—See the Registrar and pay your fees. (In the Library.)
- 3—See the Dean of Women (or Men) and get your room. (Deposit of fifty cents for return of key is required.)
- 4—Get your program made out in Leonard Hall.
- 5—Books are secured at the College Book Room. Please do not endeavor to obtain books until you know what books are to be used in the Course.
- 6—Credits are evaluated by the Dean of Instruction.
- 7—The Principal's office is always at your service.

YOUR PART

The Indiana State Teachers College maintains a high standard of excellence both as to scholarship and as to attainment of skill in teaching. This high standard is possible only by the work of the students. The reputation and the standards depend

upon the students and alumni. Students who enter the Indiana State Teachers College should understand that opportunity entails responsibility. One essential element in the teacher's preparation is time. Solid attainment is never a mushroom growth. Two years' work demands two years in which to do it well, and unless work is well done, the result will prove a source of regret through many years of mistakes which might have been avoided had more thorough preparation been made. If you need more than a year for your work, and have only the means at command for one year's expenses at school, come for the year, and then, by remaining out of school for a time, make it possible to return and complete your course. It is not an absolute necessity that you graduate at a certain time; it is absolutely essential to your success that you make thorough preparation. For these reasons, Indiana definitely limits the amount of extra work which any student may carry to three semester hours beyond the regularly specified amount.

VISITS

Success demands concentration of thought. This is prevented by frequent visits at home or elsewhere, and usually time thus spent greatly hinders the progress of the student. Make few, if any, visits away from school. Parents of students at Indiana are requested to think this matter through. Not the child's desire, but what is best for him or her, should control the decisions of parents.

ELECTRICAL AND HEATING APPARATUS

Students are not permitted to use or to have alcohol lamps or stoves, electric irons or heaters or cookers, or any preparation for producing fire or heat in their rooms. The school provides facilities for pressing clothes, and a "Candy Kitchen" for whatever cooking is necessary for "spreads."

THE RIGHT ATTITUDE

It is the school's interest and purpose to serve you, but this it can do but poorly unless you conform to the life of the Institution. Make up your mind to get all the good out of the school you can. Come with the purpose of being happy in your work, of getting acquainted and entering heartily and cheerfully into the complete life of the school, making it all yours.

Summary of Requirements for Admission

Adopted by Board of Normal School Principals, March, 1926.

THE following regulations were adopted by the Board of Normal School Principals March, 1926, and until further notice will apply to the Teachers colleges:

Admission to a State Teachers College shall be on a basis of graduation from an approved four-year high school, or equivalent training in an approved private secondary school.

Graduates of senior high schools in a school district maintaining an approved junior high school organization will be admitted on evidence of twelve units of preparation earned in grades 10, 11 and 12.

A unit represents not less than 120 sixty-minute periods of prepared work, or the equivalent.

Until September 1, 1927, high school work completed prior to July 1, 1924, will be accepted on the basis of 96 clock hours of work requiring preparation.

Graduates of approved two-year high schools are entitled to not more than eight units of credit and graduates of approved three-year high schools to not more than twelve units of credit toward the standard admission requirement; provided, however, that such students, or other students having irregular entrance qualifications, may take examinations in additional subjects taken in course in county superintendents' offices in all counties having such students at the close of the school year. These examinations will be given under the direction of the Credentials Bureau of the Department of Public Instruction, under a cooperative plan adopted by the Board of Normal School Principals, January 15, 1926. In case of failure in a subject, or subjects, the student after additional study during the summer, may take a second examination in August at one of the normal schools or at any one of the centers where State examinations are regularly conducted, namely, Philadelphia, Harrisburg, Pittsburgh, and Scranton.

Under this arrangement students who complete the work of a four-year high school with a three-year rating may take examinations in fourth-year subjects and thereby receive credit equivalent to that of a four-year high school; graduates of three-year high schools with a two-year rating may take examinations in third-year subjects for credit in three years of approved high school work. All inquiries should be addressed to the Credentials Bureau, Department of Public Instruction, Harrisburg, Pa.

Credentials of all students entering the State Teachers Colleges on the basis of an approved four-year preparation shall be received and evaluated by the normal schools. Students not having an approved four-year preparation or students whose preparation is irregular, shall have their credentials evaluated by the Credentials Bureau of the Department of Public Instruction.

Graduates of approved four-year high schools or of equivalent private secondary schools who desire admission to a State Teachers College without examination must present a detailed statement of all studies pursued, including the time devoted to such studies, and the grades received. Blanks for such purposes may be secured from the principal of the State Teachers College. These blanks should be filled out by the principal of the school which the student attended, or where this is impossible by the local superintendent of schools.

Advanced credit will be given for equivalent courses in approved institutions of collegiate grade, but no students may obtain a normal school certificate without a minimum residence of one year. (Teachers who have been granted credit for experience may finish a two year curriculum with a minimum residence of one-half year.) (See below.)

The usual health certificate required by law for the certification of teachers shall be presented by all applicants for admission. Applicants disqualified, by reason of physical defects, from the successful performance of the duties of a teacher will not be admitted.

All applicants for admission shall present evidence of good moral character and ideals characteristic of the teaching service.

No candidate for a normal school certificate shall receive more than twenty semester hours of credit toward graduation for work done in extension classes or by correspondence.

EXPLANATION OF GRADES

"A" indicates an excellent grade of work.

"B" indicates a good grade of work.

"C" indicates a fairly satisfactory grade of work.

"D" indicates a low grade of passing work.

"F" indicates a failure and no credit shall be given for the course so marked until it has been repeated in the regular way.

"I" is given to students who because of absence on account of personal illness or other entirely satisfactory reason have been unable to complete the required work, but who have been doing in general a satisfactory type of work. This mark must be removed within one month of regular work after the student's return to school or become a failure. Upon completing the required work the student may receive any mark to which the teacher feels he is entitled.

A system of Quality Points has been established, as follows:

(1) There are required for graduation a number of quality points equal to the number of semester hours of credit required in the course being pursued.

(2) An "A" mark gives 3 quality points for each semester hour of credit so marked; a "B" mark gives 2 quality points for each semester hour of credit so marked; a "C" mark gives 1 quality point for each semester hour of credit so marked; and a "D" mark gives 0 quality points.

CHANGE IN POLICY RELATING TO COMMENCEMENT EXERCISES

Hereafter three Commencements each year will be observed,—Commencement at the close of the second semester—at the close of the summer session—at the close of the first semester. This means that only those students who have actually completed their courses will be permitted to take part in any given Commencement.

THE THREE TWO-YEAR CURRICULA FOR ELEMENTARY TEACHING

Group I—Kindergarten-Primary—for teachers of Kindergarten and Grades 1, 2 and 3—2 years in length.

Group II—Intermediate Grades—for teachers of Grades 4, 5 and 6—2 years in length.

Group III—Rural—for teachers of rural schools—2 years in length.

STUDENTS PREPARING FOR ELEMENTARY TEACHING MUST SELECT ONE OF THREE CURRICULA

The three curricula have been organized upon the necessity of specialization even in the field of elementary teaching. Each curriculum prepares for a specific type of teaching position.

The work of the first semester is the same for all students. A large purpose of the work of the first semester is to acquaint students with the requirements for successful teaching in the different grades so that they may be able to decide intelligently in what grade or grades they prefer to teach. The course entitled "Introduction to Teaching" which includes observation and participation in the training school is especially designed to aid students in a wise selection of a curriculum.

At the end of the first semester students who plan to be in the College for two years only are asked to select one of the three curricula for the purpose of specializing in a specific field of teaching. The work of each curriculum must be completed in its entirety. Students may be granted the privilege of changing from one curriculum to another only on condition that the prescribed courses of any curriculum so selected must be completed before a certificate of graduation is granted.

**REQUIREMENT FOR GRADUATION FROM TWO-YEAR CURRICULA
AND CREDENTIAL**

The completion of the 68 required semester hours in a two-year curriculum entitles the student who meets all other legal requirements to the Normal School certificate which is a valid state license to teach in the elementary school for two years. On the completion of two years of successful teaching, the Normal School Certificate is made into the Normal School Diploma which is a valid life license to teach in the elementary schools of Pennsylvania.

IV. Advanced Two-Year Curriculum Leading to B. S. in Education

(Open only to Those who have Completed the Work of Groups I, II, or III, [rural])

Conditions of Entrance to the Third Year of the Four-Year Curriculum in
Elementary Education

1. All persons who have completed the work of Groups I, II, or III (rural, formerly IV) are admitted to third year standing provided they have previously completed the work of a four-year high school, and all such persons must complete 68 hours of work beyond graduation from Groups I, II, or III (rural, formerly IV) as these were, prior to September 1, 1926, organized and administered.

2. All credits for work less than that required at a State Normal School for graduation between September, 1920, and September, 1926, shall be evaluated by multiplying the number of semester hours already earned by .85.

STATE TEACHERS COLLEGE, INDIANA, PENNSYLVANIA

The following table applies this ratio to enough typical cases to illustrate the principle:

Former Semester Hours		New Semester Hours
6	x .85 =	5.0
11	x .85 =	9.0
22	x .85 =	19.0
36	x .85 =	21.0
60	x .85 =	51.0

RULE: If the decimal is less than .5, disregard it; if it is .5 or more, count it as a unit.

3. All persons who graduated from a State Normal School prior to September, 1920, and who have had a four-year high school preparation, cannot be awarded more than 68 semester hours of credit for their normal school work.

4. Graduates of the State Normal Schools who have not had four years of high school preparation may apply to the Credentials Bureau, Harrisburg, Pennsylvania, for a high school equivalent certificate, which, when issued by the Credentials Bureau, will be accepted by the State Normal Schools as equivalent to graduation from a four-year high school and all credits earned at a State Normal School prior to September, 1926, will be evaluated as indicated above.

5. No credit for public or private school teaching experience, previously credited as high school equivalent or as equivalent professional credit toward graduation, shall be granted or counted toward meeting the requirements for entrance to or graduation from the advanced two-year curriculum.

FIFTH SEMESTER

Opportunity is provided so that a student may complete in this semester the work of the first two years in the curricula which he did not pursue, as follows:

1. Graduates of Group I will take:

Teaching of Arithmetic	3	3
Teaching of Geography	3	3
Teaching of English	3	3
Teaching of Social Studies	3	3
	<hr/> 12	<hr/> 12

2. Graduates of Group II will take:

Teaching of Primary Reading	3	3
Teaching of Number	2	2
Teaching of Primary Subjects	4	4
Kindergarten-Primary Theory	2	2
	<hr/> 11	<hr/> 11

3. Graduates of Group III will take:

Teaching of English	3	3
Teaching of Number	2	2
Kindergarten-Primary Theory	2	2
Teaching Primary Subjects	4	4
	<hr/> 11	<hr/> 11

Total taken by a Student as above	11	11 or	12	12
Educational Psychology	3	3	3	3
Economic Biology	3	3	3	3

Four-Year Curriculum for the Preparation of Junior and Senior High School Teachers

THE State Teachers College at Indiana has for some time given special attention to the important work of preparing teachers for Junior High Schools. In the present course leading to the degree of Bachelor of Science in Education careful provision is made for the preparation of thoroughly qualified teachers for all fields of secondary school work. A study of the following curriculum and the list of electives on page 33 will show that it provides these important features: a broad general foundation in the fields of secondary education; a thorough grounding in the science of education; from twenty-four to thirty-six hours of intensive study in each of two fields of high school work; and, lastly, a full semester's practice teaching under expert supervision in the fields of the student's choice. This combination produces a teacher who is not merely a subject-matter expert but who knows the sciences that lie back of successful teaching and has had a chance to apply these sciences under expert guidance.

The demands for teachers in this department has far exceeded the supply. It offers splendid opportunities for young men and women who wish to enter the field of teaching in Junior and Senior High Schools, no matter what their plans for later teaching may be. It is especially recommended to those young men who have the personal and intellectual qualities to fit them for the splendid opportunities that are now offered in the supervisory fields of public education.

^a REQUIREMENT FOR GRADUATION AND CREDENTIAL

The credential to be awarded on the completion of the 136 semester hours of the foregoing curriculum is a B. S. in Education which entitles the holder to teach in any public school any subject in which he has earned 18 or more semester hours of credit. After two years of successful teaching, a life license in the foregoing field is awarded.

ELECTIVE FIELDS FOR PROSPECTIVE HIGH SCHOOL TEACHERS

The person who is to teach successfully in the junior or senior high school must have, in addition to what has been prescribed, a special preparation in at least two fields. A third field, in which less preparation is possible, is also desirable. There are electives in six fields.

Thirty-two

ELECTIVE ARRANGEMENT OF FOUR YEAR HIGH SCHOOL FIELDS**(Six Semester Hours per Year in Each of Two Fields for Three Years)***Electives in English*

- 3—3 Teaching of English in Junior High School
 3—3 Philology and Grammar
 3—3 Contemporary Poetry
 3—3 Short Story
 3—3 Elizabethan Drama
 3—3 Modern Novel

18 + 18 Required = 36

Electives in Science

- 6—6 Physics
 3—3 Economic Biology
 4—3 Advanced Biology
 3—3 Descriptive Astronomy
 3—3 Teaching of Science in Junior High School
 3—3 Physiography

27 + 6 Required = 33

Electives in Geography

- 3—3 Economic Geography
 3—3 Physiography
 3—3 Geography of European Countries
 3—3 Geographic Influences in American History
 3—3 Geography of U. S. and Canada
 3—3 Geography of Latin America

18 + 6 Required = 24

Electives, however, are particularly liable to misuse unless carefully safeguarded. The selection of electives is deferred until the end of the first year and is subject to the following:

Electives in Social Studies

- 3—3 Teaching of Social Studies
 3—3 Early European History
 3—3 Modern European History
 3—3 American History to 1865
 3—3 American History since 1865
 3—3 Political Science

18 + 15 Required = 33

Electives in Mathematics

- 12—12 Mathematical Analyses
 (A practical two-year course in Algebra, Trigonometry, Analytical Geometry, the Differential, and Integral Calculus)
 3—3 Teaching of Junior High School Mathematics
 3—3 Teaching of Algebra and Plane Geometry

18—18, and none required, = 18

Foreign Languages

- 15—15 in French or Latin
 After two years High School French or three years High School Latin.
 3—3 Teaching of Languages
 18—18, and none required, = 18

PREREQUISITES FOR THE ELECTION OF FIELDS IN THE HIGH SCHOOL CURRICULUM

1. To elect Science, a student must present a unit in Chemistry and a unit in Physics.

2. To elect Social Studies, a student must present two high school units in social studies.

3. To elect Mathematics, a student must present one high school unit in Algebra and one high school unit in Plane Geometry, or two units in Composite Mathematics, one of which at least must have been taken in the Senior High School.

4. To elect French, a student must present two high school units in French.

5. To elect Latin, a student must present three high school units in Latin.

When a student has chosen his elective fields, his curriculum becomes a closed series of courses not subject to change without loss of credit.

Note: The same regulations apply regarding admission and advanced credit for work already given, etc., as are applicable to the Advanced Two-Year Elementary Curriculum.

The Department of Music

THE Department of Music is organized to meet the various needs of the student body along musical lines. Its work is divided under four general heads, viz:

1. The teaching of the subject matter of Public School Music to the regular normal students.
2. The presentation of a four year curriculum for those desiring to become supervisors and special teachers of music in the public schools, leading to the degree, Bachelor of Science in Public School Music.
3. Private instruction in piano, organ, voice, violin, and all string and wind instruments of the symphonic orchestra and military band.
4. The organization and maintenance of educational recreational activities such as choral clubs, glee clubs, bands, orchestras, etc.

ADDITIONAL REQUIREMENTS FOR ADMISSION TO THE SUPERVISOR'S CURRICULUM

1. The possession of an acceptable singing voice and of a fairly quick sense of tone and rhythm.
2. Ability to sing at sight hymn and folk tunes with a fair degree of accuracy and facility.
3. Ability to play the piano or some orchestral instrument, representing two years' study.

REQUIREMENTS FOR GRADUATION

Persons recommended for the degree of Bachelor of Science in Public School Music must meet the following requirements in addition to having completed the four-year curriculum for the preparation of music teachers and supervisors.

1. The ability to interpret and guide in the solution of such vocal problems as are found in the elementary, junior and senior high school.
2. The ability to present song materials in an artistic manner.
3. The ability to play at sight the piano accompaniment to song materials of the grade found in current use.
4. The ability to play at least one orchestral instrument with a teaching knowledge of the theory of all the instruments.

FEES FOR PRIVATE INSTRUCTION

The fee of \$60.00 per semester covers the cost of instruction in the courses listed in the supervisors' curriculum as Piano or Voice; when proficient in these a student may take Organ or Violin. The classes in band instruments are charged for at the rate of \$13.50 per semester.

RENTAL CHARGES

Piano Rental—One fifty-minute period per day, \$6.00 per semester.

Organ Rental—Two fifty-minute periods per week, \$6.00 per semester.

Two Manual Practice Organ—One fifty-minute period per day, \$10.00 per semester.

Wind instruments, with the exception of clarinets, are rented to the students at from \$5.00 to \$10.00 per semester, according to the value and delicacy of the instrument.

NOTE—For statement of boarding expenses, etc., see page 12.

Thirty-four

CURRICULUM FOR SUPERVISORS OF MUSIC

This curriculum, which requires graduation from a four-year high school for entrance and which is four years in length, prepares specifically for the teaching and supervision of music in the elementary and secondary schools of the Commonwealth. Those who complete this curriculum receive, without examination, and in addition to the degree, a special temporary State Certificate as Supervisors of Public School Music. After two years of successful teaching, the Permanent State Certificate in Music is awarded. The courses are given by an adequate faculty of experienced teachers, each skilled in particular branches.

On account of the increasing demand in the public schools for Directors of Music who understand the instrumental as well as the vocal side of this work, all students will be required to study at least one band instrument for at least two years, in addition to the study of the piano and violin.

The Outline of the curriculum follows:

VII. Four-Year Curriculum in Music for the Preparation of Teachers and Supervisors

FIRST SEMESTER

Elementary Theory.....	3	3
Sight Reading (1).....	5	2½
Dictation (1) (Ear Training).....	5	2½
Voice, Piano, Organ, Violin, Chorus, Orchestral and Band Instruments—Arrange work for greatest benefit of students.....	4	2
Educational Biology.....	3	3
English (1).....	3	3
Physical Education (1).....	3	1
	<hr/> 26	<hr/> 17

SECOND SEMESTER

Harmony and Melody (1).....	3	3
Sight Reading (2).....	3	1½
Dictation (2) (Ear Training).....	3	1½
Voice, Piano, Organ, Violin, Chorus, Orchestral and Band Instruments—Arrange work for greatest benefit of students.....	4	2
Introduction to Teaching.....	3	3
English (2).....	3	3
Physical Education (2).....	3	1
Oral Expression.....	2	2
	<hr/> 24	<hr/> 17

THIRD SEMESTER

Harmony and Melody (2).....	3	3
Sight Reading (3).....	3	1½
Dictation (3).....	3	1½
Violin Class (1).....	2	2
Voice, Piano, Organ, Violin, Chorus, Orchestral and Band Instruments—Arrange work for greatest benefit of students.....	4	2
Psychology and Child Study.....	3	3
Elective.....	3	3
Physical Education (3).....	3	1
	<hr/> 24	<hr/> 17

FOURTH SEMESTER

Harmony and Melody (3).....	3	3
Sight Reading (4).....	3	1½
Dictation (4) (Harmonic).....	3	1½
Violin Class (2).....	2	2
Voice, Piano, Organ, Violin, Chorus, Orchestral and Band Instruments—Arrange work for greatest benefit of students.....	4	2
Educational Psychology.....	3	3
Elective.....	3	3
Physical Education (4).....	3	1
	<hr/> 24	<hr/> 17

FIFTH SEMESTER

History of Music and Appreciation (1).....	3	3
Child Voice and Rote Songs with materials and methods for grades 1, 2, 3.....	3	3
Harmony (4) (Keyboard).....	3	3
Voice, Piano, Organ, Violin, Chorus, Orchestral and Band Instruments—Arrange work for greatest benefit of students.....	4	2
History of Education.....	3	3
Elective.....	3	3
	<hr/> 19	<hr/> 17

SIXTH SEMESTER

History of Music and Appreciation (2).....	3	3
Materials and Methods Grades 4, 5, 6.....	3	3
Harmony (5) (Musical Form and Analysis).....	3	3
Voice, Piano, Organ, Violin, Chorus, Orchestral and Band Instruments—Arrange work for greatest benefit of students.....	4	2
Educational Sociology.....	3	3
Elective.....	3	3
	<hr/> 19	<hr/> 17

SEVENTH SEMESTER

Harmony (6) (Composition).....	3	3
Games, Pageantry and Folk Dancing.....	3	3
Orchestral and Choral Conducting.....	3	3
Voice, Piano, Organ, Violin, Chorus, Orchestral and Band Instruments—Arrange work for greatest benefit of students.....	4	2
Principles of Education.....	3	3
Elective.....	3	3
	<hr/> 19	<hr/> 17

EIGHTH SEMESTER

Materials and Methods Jr. and Sr. High School.....	3	3
Community Music.....	1	1
Voice, Piano, Organ, Violin, Chorus, Orchestral and Band Instruments—Arrange work for greatest benefit of students.....	2	1
Student Teaching.....	13	10
Technique of Teaching.....	2	2
	<hr/> 21	<hr/> 17

N. B.—The fifteen hours of elective work must be chosen from one field.

Thirty-six

CREDENTIALS

In addition to the degree Bachelor of Science in Public School Music, those who graduate receive a certificate to teach and supervise music in any public school in Pennsylvania for a period of two years. At the end of two years of successful experience in Pennsylvania, the certificate is made permanent.

A Glimpse of Jane Leonard Hall

Department of Home Economics

THE home economics curriculum offers well-rounded training for teachers of vocational and general home economics in the elementary and secondary schools of Pennsylvania. Graduates of this college curriculum receive the degree of Bachelor of Science in Home Economics and are eligible to receive a certificate valid for any vocational (Smith-Hughes) or general home economics position in the public schools of Pennsylvania. After two years of successful teaching in the public schools of Pennsylvania a life certificate to teach home economics is granted.

A graduate of this curriculum may also be certificated to teach English.

ENTRANCE REQUIREMENTS

The requirements for admission to the Home Economics Department are the same as already specified except that students who enter in the fall of 1929 must offer both high school physics and high school chemistry preparatory to taking the course.

SUMMER PROJECTS IN THE HOME ECONOMICS CURRICULUM

At least one summer project is required. Two projects will be required of any student whose need demands them.

A project carried at the end of the Sophomore year is planned so that the student may have an opportunity to continue the work in her weakest subject. This project is planned with the subject matter teacher and checked by her.

A project coming at the end of the Junior Year may be given in the field of Child Care and Training, Nutrition, Millinery or Home Management (3). This project is planned with the subject matter teacher and checked by her.

HOME MANAGEMENT HOUSE (PRACTICE HOUSE)

The Home Management House is located on the campus. It is a large airy house attractively and appropriately furnished. It has an atmosphere of a real comfortable and hospitable home.

The semester that a third year student takes home management (3) she lives in the Home Management House.

The home management supervisor lives here and directs the course.

THE HOME ECONOMICS CLUB

The Home Economics Club is an organization which aims to develop a social interest among the students in the department. It is the means whereby the new student finds friends and help in adjusting herself to college life, and in getting acquainted with other activities outside of the department. Through the year the Club has picnics, parties and entertainments. At the regular meetings of the Club interesting programs are presented by the members. Every opportunity is offered to develop initiative, leadership and comradeship.

The officers are elected annually by the members of the Club.

THE PLACEMENT OF GRADUATES

The Director of the Home Economics Department assists all graduates in obtaining suitable teaching positions. Every effort is made to place the graduate in the community in which she can render her best service.

Graduates of the department who are teaching and have made good teaching records are given on application assistance by the Director when a change in position is desired.

APPLICATION FOR ADMISSION

All applicants for admission should file their applications as early as possible. Application blanks may be obtained by writing to the Registrar.

VIII. Four-Year Home Economics Curriculum

FIRST SEMESTER

Principles of Design (1).....	4	3
Clothing (1).....	9	5
Physiology and Hygiene (Bio. 1).....	2	2
English (1).....	3	3
Inorganic Chemistry.....	4	3
Physical Education (1).....	3	1

Practice House

Department of Commerce

OPPORTUNITIES

THE State Department of Public Instruction has especially designated State Teachers College, Indiana, Pa., as the *one* in which the commercial teachers of the high schools of the State shall be trained. The curriculum is four years in length, leading to the degree of Bachelor of Science in Education. Those who complete the work as outlined are prepared either to supervise or teach any or all of the commercial subjects found in any of the high schools of the State, and are certified accordingly.

A wonderful opportunity is available here for men and women of high caliber who possess the ability and ambition requisite for success in this type of work. The courses in commerce are all up-to-date and interesting, and appeal to men and women who appreciate the fact that education should be useful and should prepare for living in a great world of business activity, as well as to broaden the interests and appreciations. The commercial graduate has more than an education; he also has a means of making a living in a number of honorable vocations.

ENTRANCE REQUIREMENTS

Applicants for entrance to the Department of Commerce must be four-year high school graduates with at least sixteen (16) units of credit. No previous commercial training is required. All applicants are accepted on trial only. Ample opportunity is afforded for latent ability to develop during the period of trial. If, after sufficient opportunity has been given to demonstrate ability and aptitudes that would insure success as a commercial teacher, the student is considered satisfactory, he is so advised. Graduates from the Department of Commerce will find their places eventually in positions of much responsibility in the larger high schools. This suggests that only those who possess the ability, ambition, personality, and aptitudes requisite for success in such professional work and who have proved themselves to be above the average in high school, should apply for entrance to the Department of Commerce.

A WARNING

Many students who have attended certain other schools and who have been disappointed in many ways, have found to their great regret that the credits they earned in those schools were of no value when attempting to transfer them to Indiana, or other schools of college grade. A word of warning, therefore, seems no more than fair to those who are contemplating commercial teacher training work.

It is due every person who is contemplating commercial teacher training to write either the State Department of Public Instruction or the State Commercial Teacher Training College at Indiana, Pa., and ascertain whether an accredited *Degree* may be procured at any institution under question before making any further plans whatever for entering any school.

We meet every requirement laid down by the State Department of Public Instruction for teaching in the best high schools of the State. We grant a fully-accredited *Degree* recognized by the graduate schools of leading universities. If you are in a position to place your application with us before we are filled, we shall be glad to consider your application if you can measure up to the other requirements for entrance.

ADVANCED STANDING

Any applicant who contemplates making application for entrance to this Department of Commerce, who has had the equivalent elsewhere in a recognized school of college grade, of any of the work outlined in our curriculum, may make application for advanced standing. Such application should be made as soon as convenient to the Director of the Department of Commerce.

EQUIPMENT

The Department of Commerce is well equipped throughout with a full supply of all modern office machines. Adding machines, calculating machines, banking machines, multigraphs, mimeographs, mimeoscopes, addressographs, dictaphones, files and cabinets, and other up-to-date efficiency devices of modern business give the students a practical knowledge of the time-savers found in modern offices. Their uses are taught and mastered in this department. Our students become very proficient in the manipulation of such machines before graduation.

BUSINESS PRACTICE DEPARTMENT

Our Business Practice Department is a complete business community in itself, and includes not only the procedure but also the actual atmosphere and environment of modern business. It is equipped for efficient and up-to-date work. Much practical business experience may be procured in our Practice Department.

PRACTICAL EXPERIENCE REQUIREMENTS

These requirements are a vital and necessary part of the prospective teacher's preparation and are in addition to the courses outlined in the curriculum. Being integral parts of the curriculum, satisfactory credits in them must be earned before graduation. Such experience does not necessarily have to be procured during consecutive months. It may be procured previous to or during the course. The Department assists students in procuring suitable positions where this practical experience may be acquired. The purpose of this practical training is evident. Such experience will prove to be very valuable to young teachers when they face the problems of their respective communities. Credit is given for actual business experience previously procured and also for that acquired in our own Business Practice Department. The requirements are as follows:

1. Two months of Store Practice at places and under conditions approved by the Director of the Department.
2. Two months of Secretarial Experience at places and under conditions approved by the Director of the Department.
3. Two months of Bookkeeping or Clerical Practice at places and under conditions approved by the Director of the Department.

PRACTICAL TEACHING

Each student in training in the Department of Commerce procures more than the State requirement in hours of actual practical teaching and observation. We conduct a number of teaching centers in connection with some of the largest high schools within convenient reach. To those teaching centers our students are sent for one full term for their practice teaching. The teacher holds a regular position in the high school and carries a full program of classes and extracurricular activities. The work is supervised and criticized by our own experienced supervisors and critics. Everything is done to afford those in training as much actual teaching experience and school contact as possible before graduation. During this semester in the teaching centers the board, room, etc., of the student teacher is paid by the school board of the teaching center, thereby reducing the expenses of the student teacher for that term.

THE TEACHER PLACEMENT BUREAU

A very efficient Teacher Placement Bureau is conducted in connection with the Department of Commerce for the purpose of obtaining suitable teaching positions for our graduates, and also for promoting the interests of those of our number who have been teaching for a year or more and who have made good records and desire a change. No charge whatever is made for the services rendered by this Bureau. Our aim is to find good teachers for good schools and good schools for good teachers. Any student who has previously been enrolled in this department or who contemplates entering in the near future, either in summer or winter session, is eligible for Free membership in the Teacher Placement Bureau.

DEPARTMENT OF CO-OPERATION

It is desired that a very close co-operation be experienced between our graduates and other teachers and the Department of Commerce. In this way, greater success may be experienced by commercial teachers generally, and the actual problems of the commercial teaching field may be made available for those in training. It is desired that the Department of Commerce shall serve as a clearing house of commercial ideas for all the commercial teachers of the State, no matter where the teachers received their college training. This is a State school—not a private institution. Our spirit of co-operative service is hard to understand at times by those who have received training at a private institution. Our interests are in the commercial education of the entire State and Nation and are not limited to this one institution.

THE CHAMBER OF COMMERCE

There is organized, in connection with the Department of Commerce, a Chamber of Commerce. The work of this organization is similar to that of any chamber of commerce as found in the cities and larger towns. Frequent opportunity is afforded for public discussion and debate on current, popular topics applicable to the work. This organization fosters the formation and conduct of the commercial clubs of the high schools, wherever the assistance is desired. The officers of the Chamber of Commerce are elected from the members of the student body of the Department of Commerce. The work is supervised by a member of the Department of Commerce Faculty. The organization is affiliated with the local city organization. The Chamber of Commerce of the Department also fosters the Inter-County Commercial Contest Organization for the State.

THE STUDENT SENATE

A Student Senate is organized for the purpose of co-operating with the Director and teachers for the welfare of the Department of Commerce in general and special cases in particular as they arise. The members of the Senate are chosen by ballot as representatives of the various classes in training. The Senate is the connecting link between the commercial faculty and the student body in our scheme of student participation in control of school government. Meetings are called at the discretion of the chairman or of the students.

THE INTER-COUNTY CONTESTS

In order to help raise the standards of the commercial work among the various high schools of the State, a commercial contest organization has been effected. This is a very active organization and the contests are a very interesting annual event. The State is divided into sections—the Eastern and the Western. A final contest is held in each section in May. Each county so desiring may hold a preliminary contest in April, at which time representatives for the Final Contest are chosen. Each county should have a county organization of commercial teachers through which this organization may function. These contests create much friendly rivalry of a beneficial character and help to arouse much interest and enthusiasm among the high schools. No better way has been devised to ascertain the commercial teachers who are getting results and to give them proper credit due them. The events include practically all of the commercial subjects. Those interested should write for an outline of the plan.

SUMMER SCHOOL

We conduct a complete summer school of commercial theory and methods for the benefit of those who have been teaching and who wish to become further certified or acquire additional ideas and methods. It is possible under certain circumstances for those who, for economic reasons, drop out before graduation to complete the work through summer sessions. The same credit is given for work done in either summer or winter sessions. Those interested in the summer school should write for the Summer School Bulletin.

EXPENSES

The entire expense for a school year of thirty-six weeks will amount to about \$350. This will cover board, room, laundry, books, term fees and department fees. Elsewhere in this catalog a detailed list of expenses will be found.

THE CATALOG

Enough has been given in these few pages to give you a glimpse into the Department of Commerce.

An application blank, which may be used by you in case you desire to apply for entrance to the College, will be found enclosed with the Catalog.

APPLICATION FOR ENROLLMENT

We accept a definite, limited number of the best-qualified high school graduates each year. When our quota is filled, we place the names of all additional qualified applicants on our "waiting list" and notify them in turn in case a vacancy occurs. Those who desire to make application for entering the Department of Commerce should get their applications in early, in order to insure a reservation.

For more specific information concerning the work of the Department of Commerce, write G. G. Hill, Director, Department of Commerce, State Teachers College, Indiana, Pa.

Normal Art Curriculum

THE Art Curriculum offered by Indiana State Teachers College is based on graduation from a four-year high school and covers a period of three years. It purposes to prepare teachers for direct teaching of art and for supervision of art in graded and high schools.

Those completing the course will have training in the several branches of the Fine Arts such as: art structure, design (including commercial and costume design, and interior decoration); perspective drawing; mechanical drawing; cast drawing; drawing from the draped model and from still life; blackboard drawing; sketching from nature; clay modeling; painting, both in water color and in oil. The course also includes applied and Industrial Arts, giving practical work in weaving, pottery, textile design, construction work, jewelry, leather and metal work. The Art History and Art Appreciation Course covers all periods of sculpture, architecture, and painting.

During the senior year each student is required to teach in the Training Department of Teachers College where practical experience is gained from up-to-date methods of teaching art.

The Summer School

THE Summer School is an integral part of the year's work. Teachers in service will find the courses needed for the renewal of Partial Elementary Certificates and the securing of Standard Certificates offered on the Summer School program. In increasing measure, students in regular attendance are availing themselves of the opportunities offered in the Summer School. The Summer School program includes practically every course in the regular curricula and many courses from the special curricula.

In 1927 Indiana enrolled a total of 1278. The Summer School Bulletin is issued in February, and will be mailed to every student in attendance in the preceding summer, and also to every teacher in service in Indiana's immediate service area.

Extension Service

INDIANA is endeavoring to do its part in the preparation of teachers in service by offering extension work. Extension classes, with teachers regularly employed as members of the Indiana Faculty, will be offered whenever fifteen or more experienced teachers desire a given course.

An Extension Bulletin is available to all who apply to

Director of Extension,
STATE TEACHERS COLLEGE
Indiana, Pa.

Science.....	Vacancy

Librarian.....	Estella Slaven
School Nurses.....	Maude McDevitt and Lena F. Weatherly
Bursar.....	William Schuster
Registrar.....	Mary L. Esch

STANDING COMMITTEES OF THE FACULTY AND THEIR DUTIES

(All acts of the faculty committees are subject to the approval of the Principal.)

Athletics

This Committee has general supervision over all public athletic games, exhibitions, and contests, and has control over the arrangements for such games, exhibitions, and contests with other schools or associations.

It has control over the finances and property of the Athletic Association, and over the purchase of needed athletic supplies.

It decides what candidates for membership on teams or for admission to Athletic games, exhibitions, and contests are eligible, and it shall exclude from participation those whom it finds below the standard in their studies, or ineligible for any other cause.

It has power to appoint or remove Captains for the various teams.

Commencement

This Committee has general directive charge of the affairs of Commencement. It sees that the diplomas are ready, and has proper programs printed.

Dining Room

This Committee has general charge of all dining-room matters not coming under the official control of the Steward and Dietitian; it arranges the seating; it is responsible for good order, not only in the dining-room, but upon entering and leaving the same; in this work it has the co-operation of all members of the Faculty.

Lecture Course

This Committee selects and contracts for all lectures and entertainments for the regular Normal Lecture Course.

All entertainments, excepting those which come under the control of other regular committees or the Principal, must receive the approval of this committee and be subject to its regulations before they shall be permitted to appear in the Chapel.

Literary Society

In working with the committees appointed by the Society, or in working with the Society officials, this Committee represents the Faculty. It seeks to make more effective and valuable the work of the literary society, and to this end advises with the members of the society from time to time.

Any and all meetings of the society are open to the members of this Committee, and its members are required to attend the meetings from time to time.

Recommendations and Positions

This Committee assists graduates and qualified students to secure positions to teach, and aids school officials in procuring teachers.

It collects complete and accurate information respecting all applicants for positions to teach who ask the assistance of the Committee.

The Committee seeks to assist school authorities in procuring competent teachers. The plan is to recommend candidates best suited to fill vacancies and not to send out general letters of recommendation.

School authorities who write the Committee will have full and confidential information in regard to applicants.

School officers are cordially invited to visit the College to inspect the work of those whom they may wish to secure to fill positions. Correspondence is invited from Boards, Principals, and Superintendents in regard to vacancies and teachers. This information will be treated in full confidence and all possible assistance will be gladly given.

While the chief work of the Committee will be to help the students who are in attendance, yet it is the purpose to lend assistance to graduates and former students in securing for themselves more satisfactory positions. To this end the full cooperation of Alumni and former students is earnestly desired. Write to the Committee when in need of a teacher. Supply information concerning vacancies.

All correspondence in regard to location of teachers should be addressed to the Secretary or the Principal.

The Teachers College, through its Committee on Recommendations and Positions, is prepared to give systematic aid to its graduates and students in securing suitable positions to teach.

Religious Work

It is the function of this Committee to assist and encourage the students in all religious work. It advises with the officers of the Y. W. C. A. and Y. M. C. A.

School Magazine

This Committee has general charge of the publication known as Teachers College Bulletin.

Social Life

This Committee has general and executive charge of the social life of the students. It directs and controls the Saturday evening social, and all other social affairs at the school.
